DAY **LIGHTER™**

POTHOLING HYDRO EXCAVATOR BY AQUATECH™

AQUATECH™
A PRODUCT OF HI-VAC CORPORATION

DAY LIGHTER™

POTHOLING HYDRO EXCAVATOR BY AQUATECH™

REPORTING FOR HEAVY DUTY

Introducing the potholing hydro excavator with the power and capacity to quickly power through any project. The Daylighter by Aquatech™ has the power and performance to battle tough jobs without the downtime and wasted time of light-duty catch basin trailers.

VACUUM WITH A VENGEANCE

Heavy-duty hose options in 6" or 8" sizes, along with a choice of **5000 CFM/18" or 4000 CFM/27" vacuum** options make quick work of potholing and hydro excavating.

BETTER FROM THE TOP DOWN

Serious jobs call for serious equipment. The Daylighter features a rugged **top-loading boom** design that reduces wear and tear and can easily handle the toughest projects.

ATTACK FROM ANY ANGLE

The fully hydraulic top-mounted boom provides **unlimited 360° operation** for awesome vacuuming power from any location around the unit.

CAPACITY MEETS CAPABILITY

Introducing a high-water mark for jobsite efficiency. An **1,150 gallon water tank** means the job is finished when it's finished, not when you run out of water.

PEACEFUL TRANSFER OF POWER

Lower maintenance means higher productivity. Unlike weak hydraulic drives that are easily bogged down or overloaded, the Daylighter features an **OMSI heavy-duty transfer case** drive that keeps going strong.

A TANK THAT'S BUILT LIKE A TANK

The **6 or 10-cubic yard**, ultra-durable, ASME Certified debris tank is built for the long haul and has the lifetime warranty to prove it.

PRESSURE WITH PURPOSE

The high-pressure water pump effortlessly powers through projects with **20 GPM at 2500 psi**.
